NEW FOR 2007!!!

Realism... realism... realism...

That's the key to modern day duck hunting success plain and simple. 45 seasons in the field and 24 years in the carving shop have taught me a few things, and it has been one of the more satisfying experiences of my career to watch my work come to life. I have put everything I know into the concept, design and carving of these awesome hunting decoys.

Dick Rhode, 2-time World Champion carver & serious duck hunter
